<p><b>1/12/17: No status change from previous update. 4/18/16:</b> No status change from previous update. <b>11/24/2015</b>-Saint Anthony submitted application at end of Oct 2015 for planning funding. Still has an assistance referral for TMF due in January. Owner has obtained a conditional use permit through Riverside County. A condition of the CUP is to provide centralized treatment prior to issuance of any building permits. The existing treatment station has been approved as an interim solution until centralized treatment is installed. This is a county code case. The LPA is working with other Departments to permit this park and obtain compliance. 10/25/16: Please see notes on funding and planning section. <b>7/21/16:</b> Plans have been submitted for new distribution system. Treatment plans are pending. The LPA and our state DE would prefer that this system consolidate with Coachella Valley Water District (CVWD). <b>6/5/2015</b>-Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. Saint Anthony MHP is an unpermitted park. Owner has obtained conditional use permit through Riverside County. A condition of the CUP is to provide centralized treatment prior to issuance of any building permits. The existing treatment station has been approved as an interim solution until centralized treatment is installed. Preliminary treatment plans approved by LPA. Owner of the park has applied for Prop 84 funding.</p>	
<p><b>1/12/17: No status change from previous update. 10/25/16:</b> Treatment plans approved 9/14/16. Condition of approval is that treatment system must be operational by 4/1/17. Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. System is classified as a non-transient, non community.</p>	
<p><b>1/12/17: No status change from previous update. 10/25/16:</b> FFAST application has been submitted. Still needs to be reviewed by State. <b>7/21/16:</b> Water system has contacted CVWD about consolidation. LPA contacted CVWD re: consolidation. CVWD states that this water system is interested in a master meter and they are in discussions with water system. Oasis Gardens is working with CRWA on a FFAST application to consolidate with CVWD.</p>

	<p>12/29/2016-Data needs to be cleaned up in SDWIS to reflect current status. SOX may be deleted and violations may be reassociated with old compliance order. LPA will reassess on whether this system has RTC. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. No longer going to create public entity. Water System just changed ownership in July 2015. Water system is planning on public meeting on 4/20/2016 to look at connecting smaller water systems into a larger water system. Water system ARA has dropped below the MCL. 8/2/2016 Water system is currently not exceeding the MCL and will remain on quarterly sampling.</p>
N/A	<p><b>1/19/17: water system is currently awaiting a connection estimate and dates from larger utility.</b> <b>9/6/2016:</b> Water System is going to spend the rest of their grant money on connecting to another SWS. They are waiting on the county to provide them with a contract for the service connection.</p> <p><b>6/9/2016:</b> Water system has not signed a contract with the larger utility. Water system is not going to do treatment as they cannot afford O&amp;M costs. <b>11/30/2015</b>-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Water System finished pilot study. Water system is looking into consolidation with another SWS. Water system had a public meeting on <b>4/14/2016</b> in regards to connecting to a larger water system.</p>
	<p>1/18/17: Water system submitted pilot study from Engineer. LPA is working with DDW staff for Technical Review and comments. 6/9/2016: Water system hired engineer to determine operation issues with the water system. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Operational issues. Water system changed ownership 3/24/2016. 8/2/2016 Water System is on a compliance order to determine what the operational issues are. Technical Report from PE due to EMD no later than 8/15/2016</p>

9/6/2012

9/6/2014

9/4/2015 (incomplete)	No	Pending
-----------------------	----	---------

<p>6/24/2016: Had a meeting on 6/22 with water system to discuss compliance plan. The water system is to meet with Hi Desert regarding intertie as back up to primary well. 5/9/2016-Design complete for interconnection with High Desert Water District. Awaiting prop 84 construction funds. 5/5/2016: Issued NOV on 3/29/2016 and now are now in negotiations with the county. Fluoride and Uranium were also added as constituents that were above the CA MCLs and were included as information only since the Fed EPA cannot enforce them. 3/8/2016-DDW has requested that EPA issued a compliance order. 2/18/2016-DE followed-up with San Bernardino County Special Districts, who operates the water system, about providing bottled water, and they discussed about applying through FAAST for the interim CAA emergency funds. The CSD have not been directed by the LPA to provide bottled water, so the DE gets the feeling they are hesitant to do so. The DW will keep the discussion going. There is a resolution to this in the works. Last year they completed a P84 planning project to design a 5-mile pipeline to the nearest WS, and DFA is reviewing their construction application now. They are hoping to get the FA out soon and start construction this summer. The DE didn't think he had a project where DFA was keeping the district office out of the loop, but this is one. He learned from DFA on Tuesday this week, that they had a kickoff meeting with the system in November and have been in contact with them on changes to the plans and specs that we approved last year. DFA did say they will keep the DE updated on the next documents to be submitted. 12/1/2015-Design complete for interconnection with High Desert Water District. Awaiting prop 84 construction funds.. 6/2015-RTC depends on funding availability</p>

## PROJECT INFORMATION

## PROJECT STATUS &amp; SYSTEM NOTES

01/25/2017 - Per Mark Magtoto of DFA (on 1/18/17) , the POU agreement is being reviewed by Daman Badyal and will be sent by the DFA analyst to Andrea Sissons of Warner School when ready. Per Andrea Sissons of Warner School (on 1/18/17) the signed funding agreement and attorney letter for the long term solution were to be forwarded to Brenda Pauli of DFA. 11/4/16 - Agreement No. D16-02007 was issued on 9/28/16 to Warner School from DFA for the permanent solution and included the transmittal Letter, Funding Agreement/Exhibits, signature pages and Draft copy of the General Counsel Legal Opinion Letter. The School Board approved the package and currently the legal general opinion form is being completed by School attorneys. The Clean-up & Abatement Fund agreement is being reviewed by DFA analyst. 6/15/2016 - Application for Clean-up and Abatement funds for interim solution was submitted in May 2016. Mark Magtoto of DFA indicated the application would not be considered since the engineering design from NV5 included a POE for the cafeteria building and not a POU as used in other schools with an Arsenic exceedance. A conference call between NV5, CRWA technical assistance provider, Mark Magtoto of DFA, LPA, Certified water operator, Warner School representative and DE happened in 6/2016 and addressed how to move forward. Engineer NV5 was to investigate the POU used at another school in the State and report back to the group. All documents have been submitted to Brenda Pauli of DFA to complete the application for funding for the long term solution. Application is under review and will take several months per Brenda Pali. 11/20/2015-The LPA had a conference call with Warner School today. Kyle, Brenda, Sean, Connie, Noel and the school were present. There are two items missing from the application to make it complete:

- Authorizing Resolution
- Schedule of System Obligations

The school board meets next on December 8th, at which time these items can be addressed. In the meantime the school will complete a Prop 84 application to request funds for bottled drinking water for staff/kids. The LPA is planning on visiting the site while the students are on winter break. At that time, or shortly after their visit, they will issue a revised Compliance Order that meets the approved State requirements. They will work with the DE or DDW staff to ensure that it meets all of the criteria needed to be a formal EA.

6/2015-The water system has two separate distribution systems. Well 3 is located east of Highway 79 and serves a high school, elementary school, bus maintenance building, office and residence. Well 4 and 5 are located west of Highway 79 and serve a resource center, concession stand, ball fields and continuing education classrooms.

1/25/17 - Arsenic reduction plan is due to the LPA by 3/1/17 and will likely identify blending as the long term solution. LB Twin Lakes Resort has a total of 3 approved wells, 2 of which have been in stand-by mode for the past 4 years. Water quality results from Well 1 is currently being analyzed to determine if blending is an option. Well 7 is the source which exceeds the Arsenic standard.

CONSTRUCTION-PROJECT COMPLETION DATE OR SCHEDULED COMPLETION DATE	PROJECT STATUS & SYSTEM NOTES
	<p>6/13/16, This is State funded project and San Joaquin County Public Work Department is working on the plan for the new water line extension. Once the County approves the water line extension, the City of Stockton will start the connection process. 1/11/16 CRWA is continuing to work with city and water system towards making a connection using SWRCB Funds. 11/19/2015-As this is a state funding project. The LPA has no idea on the RTC date. LPAs do not write new compliance orders with new RTC dates this is a funded state project. 11/2/2015- Julie Martinez of Cal Rural Water is working with City of Stockton for funding agreement to make a connection to MHP. Engineered Plans approved by County and City in March 2015. City to file for funding agreement w/ state in 60 days.</p>
	<p>6/13/2016, This is a State funded project and CRWA is working with the water system and San Joaquin County LPA is unaware of the status. 2/22/2016: Reid Johnson of Nolte Vertical 5 is the consultant working on this project. This is a SB funding project that provides money to the City of Manteca to install a new Source and to make a connection to this school through an Emergency out of Service area LaFCO connection. 1/11/16. Consultant, Reid Johnston, is continuing to working with water system and city to make this connection using SWRCB Funds. 11/19/2015-As this is a state funding project. The LPA has no idea on the RTC date. and the LPA doesn't write new compliance orders with new RTC dates when they are being funded. 11/2/2015- LaFCO approved out of service area connection. City working with CRWA for making a connection to the school . 3/31/15 -Sent emails to School, Engineer, City PW and State for update on progress to connect to city. No one at City or State knows where this funding project is at. 3/21/14-applying for LaFCO out of service area connection.</p>

7/1/2012	Depends on Century MHP Compliance Date	Y	
7/1/2012	6/1/2015		

4Q/2016 - 13	NONE. SRF application submitted 2008 was for nitrate not arsenic. Waiting on Century MHP SRF approval for city connection. This system can make a connection to city water off of new line to Century MHP.
4Q2016 - 17	

Yes	

	<p>6/13/2016, This is a State funded project.</p> <p>Yes, bulk hauled water is provided by Aero Pure Water Company.</p> <p>The test well was drilled and destroyed on 10/28/2015.</p> <p>1/11/16 Julie Martinez of CRWA is continuing to work with the water system to obtain the proper paperwork for SWRCB funding to make a connection with the City of Stockton.</p> <p>6/1/2015-System lacks money. Public Notification.11/2/2015-Julie Martinez of Cal Rural Water contacted Silvia regarding needed documentation. Silvia has not yet been able to locate anything but the deed, but she has not yet sent it to me.</p> <p>Silvia gave permission to contact her lab and Quality Service. Inc. for additional information. A scheduled site visit for Nov. 3rd will be made. Pursuing the connection to City of Stockton .</p>
	<p>6/13/2016, Contractor has submitted the second round of corrections to San Joaquin County Public Work Department pending for approval to install a 12" Water main extnsion. If not finished by the end of this year, A new order will be issued with a new RTC date. 1/11/2016- On 9/15/15 the LPA was made aware that the new source collapsed and was no longer a viable option. The water system was directed to obtain a Will Serve letter from Cal Water Services for a connection. On 9/29/15 the LPA received a copy of the "Will Serve" letter that confirms Cal Water Services will service this parcel. The Water System is working with Cal Water Services and Cal Trans for permits and approval to cut through the road to make a connection with the Water System. This connection should be accomplished by March 2016. 11/2/2015-New source Well collapsed. They received a Will Serve letter from Cal Water and will be making a connection within the next 12 months by 10/2016. 3/1/2015-Cal Trans completed Hwy 99 construction and took property away from this system. Now in process of installing new separate drinking water distribution system from a new source that meets arsenic standards. 2/1/15 received plans to separate industrial water use from potable use and MDD study. Plan approved for use of a new source and distribution installation. System to be in compliance by 6/1/2015.</p>

<p><b>10/31/16</b> - System Drafting Proposal which includes a lease and maintenance contract for POU units, pilot study to be included as part of proposal <b>5/4/2016</b>-DE received a call from a water system representative saying they are ready to move forward with funding and treatment. 1/29/16 - Neighboring development reaching out to from larger service area, would add an Arsenic well but pooling more connections may be beneficial <b>12/1/2015</b>-Country Hills really can't consolidate with any local system - they are still looking at the POU option. There is a large adjacent parcel which is trying to split into 22 lots. This parcel has one well (with Arsenic) but they might be willing to throw money at Country Hills and then perhaps they can all have a treatment plant installed. Very political. <b>6/2015</b>- Out to bid for POU.</p>		
<p><b>10/31/16</b> - Construction Funding Application in <b>5/4/2016</b>-The school just wrapped up their pilot study and we are meeting with them Monday to discuss the project moving forward. 1/29/16 - pilot plant continues to operate, data thus far shows that arsenic is reduced from approximately 12-13 ppb down to ND. <b>12/1/2015</b>-the plant was brought on-line about a week ago. The LPA has not seen data yet. They are also exploring a new well and are looking at sites. Still in funding world as far as the LPA knows. <b>6/2015</b>-In pilot test with treatment system.</p>

4Q/2016 - 13	<p>12/6/2016- Construction funding agreement has been drafted and is routing for final management approval. (PETE)</p> <p>6-10-16: MPP will consolidate with Keyes. The construction FA is getting very close. We requested FY 14/15 audited financial statements, which Keyes will submit by the end of the month (6/16) at the latest. Everything else from an SRF standpoint appears ready to go. However, we may be able to get them additional grant funds through a new groundwater Prop 1 funding program. That program doesn't have their process/structure in place yet. If we funded the project solely with SRF money, I'd project an August 16' FA issuance. If we co-fund, it will take longer</p>

	<p><b>1/13/17</b> - Encroachment permits delayed the anticipated consolidation completion date of <b>December 31, 2016</b>. An updated timeline for completion has been requested. <b>6/16/16</b> - Water system obtained legal council to move negotiations forward and anticipates closure of negotiations by the end of June. Begining in July the water system will initiate obtaining construction permits for the service connection.</p> <p><b>4/22/16</b> - The water system projects having consolidation fees negotiated with City of Ceres within the 2nd Qtr of 2016. <b>2/26/2016</b>: This water system is scheduled for an Office Hearing on March 1, 2016 due to failure to move forward with consolidation and will receive a revised compliance order. <b>11/2/2015</b>-*Consolidation plans submitted on 8/24/15. Existing well will be converted into a landscape well and domestic supplies will be provided from the city of Ceres.</p>

	<p>1/13/16 - A testhole for a new source was drilled in 4th Qtr 2016. Initial water quality testing indicates that there are no viable aquifers. The system is now consulting with their distribution operator and engineer for the next plan. 6/16/16 - The source is now showing elevated levels of nitrates and the water system has been required to initiate quarterly sampling. The Water system submitted correspondence on 6/8/16 indicating that they would be submitting documentation to obtain a well construction permit by the end of June 2016. A new corrective action plan is to follow per this correspondence. 4/22/16 - No new progress.</p> <p>11/2/2015-*Requested guidance from Waterboards on RTC for water systems with RAA below, but near MCL.</p>

	<p><b>1/13/17</b> - Water system has completed financial of their privately funded consolidation efforts. Permits will be applied for at the beginning of 2017 and the expected completion date is April 2017.</p> <p><b>4/22/16</b> - The water system owner experienced a medical emergency and was unable to attend. The office hearing was rescheduled for May 17, 2016 as his Dr will release him for attendance at this time.</p> <p><b>2/26/2016:</b> The water system has not moved forward with consolidation. An Office Hearing will be conducted on April 12, 2016, with a revised compliance order to follow. 9/10/15 this water system received LAFCO Approval Letter for Out of Boundary Service Agreement. Consolidation time frame will be forthcoming.</p>	
	<p><b>1/13/17</b> - Water system plans to privately fund a tie-in to the Keyes WS consolidation for (Faith Home/Green Run/Countryside/Mobile Plaza).</p> <p><b>4/22/16</b> - This water system RAA is trending upward. Initial testing for 2Q - 2016 indicates the RAA will exceed the MCL in 2Q - 2016. A compliance order will follow once the official RAA is established.</p>

## PROJECT INFORMATION

## PROJECT STATUS &amp; SYSTEM NOTES

2/28/17: No status change from previous update. 2/1/2017: The arsenic levels in Well 02 and post treatment are being monitored monthly to determine both Raw and Treated water RAAs for compliance with the Arsenic MCL. Arsenic levels in both the raw (Well 02) and treated water have fluctuated above and below the MCL since initial testing began in August 2016. Since Well 02's installation and connection to the water system, the treatment process has been unreliably effective, with intermittent treatment failure. Because of this, the water system is currently under monthly public notification, which is updated to reflect the current levels of arsenic from monthly testing results and the status of the treatment system operation as reported by the Operator. The Operator is working with Culligan to determine why the treatment system may be failing intermittently. YCEH is waiting for a final assessment of the treatment system from the Operator and Culligan pending their findings. The system is currently operating on by-pass mode from the treatment system. The raw water results (Well 02) for the month of December showed arsenic levels at 9.1 mg/L. 12/22/2016: The Yolo Fliers Club treatment system has not yet been RTC. Since the installation of treatment earlier this year, Well 01 failed and Well 02 was installed. The arsenic levels in Well 02 and post treatment are being monitored monthly to determine both Raw and Treated water RAAs for compliance with the Arsenic MCL. Arsenic levels in both the raw (Well 02) and treated water have fluctuated above and below the MCL since initial testing began in August 2016. Since Well 02's installation and connection to the water system, the treatment process has been unreliably effective, with intermittent treatment failure. Because of this, the water system is currently under monthly public notification, which is updated to reflect the current levels of arsenic from monthly testing results and the status of the treatment system operation as reported by the Operator. The Operator is working with Culligan to determine why the treatment system may be failing intermittently. YCEH is waiting for a final assessment of the treatment system from the Operator and Culligan pending their findings. The system is currently operating on by-pass mode from the treatment system. The raw water results (Well 02) for the month of December showed arsenic levels at .0091

2/28/2017: Permit Amendment issued 2/16/17. RTC pending based on RAA of treated water. 2/1/2017: Treatment was installed in September 2016. Water system is blending raw water with treated water to meet water demand for facility. Water analyses post treatment for 3Q2016 and 4Q2016 show levels < 50% MCL. Final blended water levels of Arsenic are not below the MCL. The water system is currently under public notification and has three POU devices which are installed on a temporary basis for MCL compliance. Sampling post POU's show levels of arsenic < 50% MCL. 5/5/2016: EPA had a conversation with the LPA to discuss a possible issuance of a NOV, but as time went on the water sytem submitted water quality data for the past year and has proposed to install treatment by 6/30/2016. EPA will follow-up with the LPA for a status update. 8/8/2016: Water system requested a 60 day extension for implementaion of the treatment plan for contracting and funding reasons. New deadline for treatment implementation is 8/31/2016. 4/18/2016-A letter of commitment was received in April, 2016 with implementation of the treatment plan by 7/1/2016. 2/2016- Engineering report received with proposal to use activated alumina absorptive media. 12/7/2015-

2/28/17: Connection of Well 02 to distribution system postponed due to weather. Water sytem may request extension to CAP connection deadline of 4/30/2017. Water system is undergoing permit amendment process. Water quality results to be submitted for Well 02. 11/4/16: Corrective Action Plan submitted 9/2/16 in response to Compliance Order CC0001190. Well 02 was installed 9/16/16 pending final inspection; blending proposal to be submitted to YCEH by 11/30/16. 8/8/2016: A new compliance order was issued in July 2016. Water system will submit a new Corrective Action Plan by 8/31/2016. 6/28/2016: LPA will be issuing the water system a new compliance order by 7/1/2016.

2ND ENF ACTION NO. ISSUED (Use the FED REP ID # in SDWIS)

[illegible]

MEASURES	MCL DATA
POU/POE PROVIDED (Yes/No)	QUARTER/YYYY - RAA (ug/L) (Most Current)
	SRF & School Bond Law funding completed in 2009
	No SRF application
	No SRF application
	Offered Bond law, SRF, Prop 84, and ARRA funds.
	SRF preapplication
	No SRF application

<b>FUNDING SOURCE (SRF/STATE/PRIVATE) or FUNDING STATUS (PRIOR TO 10/2016)</b>
Arsenic is above MCL in the only active well.
Problem solved
Problem solved
Only well arsenic RAA = 26 µg/L.
Well 06 and Well 07 are in violation of the arsenic MCL, RAA of both wells in 0.014 mg/L
Only well arsenic RAA = 12 µg/L.
Preapplication submitted
SRF application submitted 2008
No SRF application
Applied for SRF for source capacity issues
Only well arsenic RAA = 21 µg/L.
One well arsenic RAA = 16 µg/L. System has 3 additional sources.
Prop 40 grant given, have SRF application to treat remaining untreated well.
Both wells exceed arsenic MCL. Standby well arsenic 140 µg/L. Well 2 arsenic 170 µg/L.

PLANNING STUDY-APPLICATION DATE SUBMITTED or PROPOSED SOLUTION (PRIOR TO 10/2016)
System is non-communicative. LPA has been focusing on bacteriological monitoring violations.
Wrote violation letter. Response by system was to take well out of service and place in standby status.
Coagulation/filtration
Central treatment installed and operating as of May 2008.
Adsorptive media (GFH)
System successfully piloted adsorption media treatment.
Drilling new wells and proposal to provide arsenic.
System is proposing to install treatment.
Treatment installed and being commissioned in place.
OX connected to Cal Water Service 6/09
School closed 6/30/09.
OX System connected to city of Lathrop water 7/09
No decisions presented to CDPH.
PN & qtrly monitoring.
OX System connected to city of Lathrop water 10/09
Consolidating with the City of Petaluma.
Attempting to block off arsenic-laden strata.
Not permitted at this time due to marginal results. Permit was issued 6/23/2009.
Sources off line. Hauling water.

Well 13 and Well 09A are in violation of the arsenic MCL, RAA 0.022 to 0.032 mg/L
Arsenic MCL Violation of Well 7
Prop. 84 project-NOAA

Consolidation with City of Colusa
No decision - interim bottled water being provided
Interim treatment has been installed. Consolidation with Coachella Valley Water District Pending. CDPH has reviewed and approved plans, specifications, notice of exemption and agreement documents.
System proposing to install adsorption media treat
Modifying non-complying well
Bottled water permit as temporary measure.
NOV issued w/ cc to CDPH and EPA
The City has not used Well 13 since July 2008 and is considering submitting a request to change the well to emergency standby source status.
This well will be converted to emergency standby source.
Applied for funding; constructing a treatment plant; provide bottled water for drinking and post public notification. Construction plans have approved for treatment. Construction is currently underway.
Blending
PON As, Q. As
Proposal already submitted to provide arsenic removal
Plan to develop a arsenic blending plan with other low arsenic wells.
Qtrly PN and sampling required

<p><b>9/22/15</b> - funding agreement issued on 9/10/15. DFA &amp; DDW will be meeting with system to start project. City of Colusa has already annexed the area. The project is to replace the old distribution system and incorporate Del Oro into the City system. This will not happen until the distribution system in is replaced. However, water is bing supplied by Colusa and Del Oro is meeting the Arsenic standard.</p> <p><b>7/3/2015</b> - Waiting for funding agreement.</p> <p>Waiting for Funding Agreement for Planning study. Consolidation with City of Colusa to occur - planning study for sewer and purchase negotiations between Del Oro &amp; City.</p>	6/30/2012
	7/30/2012
Interim treatment station is providing water that meets arsenic MCL. Consolidation with CVWD pending.	8/6/2012

Using its own funds, Pinon Valley Water Company has installed arsenic removal treatment. Permit for the treatment was issued in January 2015.
5/29/15 (JSD): P84 construction funding project complete as of 3/09/15. 2/13/15 (JSD): P84 construction funding project is almost 100% complete
System not eligible.
<p><b>7/2/2015</b> - 7/1/2015 compliance date will not be met. Compliance should be achieved by 10/1/2015.</p> <p>Have Prop 84 construction grant. Construction has begun. Notice to proceed was issued on 7/7/14. Construction completion deadline is 7/7/15.</p>

Reverse osmosis POU treatment was approved by LPA and installed in July 2011.

adsorption treatment or interconnection. Interconnection is preferred, but if other water system doesn't agree, treatment plan has been approved and can be installed within 120 days.

Arsenic removal treatment installed using hybrid ion exchange technology.

2/2/15 (JSD): Phase 1 of P84 project included drilling a new well (Well 09) and Phase 2 of the project included construction of arsenic adsorption treatment plant and a new 750,000-gallon tank for blending of treated water and a portion of bypassed water from Well 09

Treatment plant was placed into operation in May 2015.

Arsenic removal treatment installed

Received Prop 84 construction funding. Will construct new water intake away from source of arsenic.

Tier 2 arsenic notifications issued quarterly. Well is sampled quarterly for arsenic. Water system is a packing house that serves approximately 80 employees. System is classified as non-transient, non community	6/9/2015
9/22/15 - New well and Treatment plant function producing water in compliance. 6/30/2015 - New well and TP installed. Will RTC - with future quarterly monitoring results. In Construction. RTC required by 6/30/15	6/30/2015
10/05/15 (JSD): Arsenic treatment is operating successfully; returned the system to compliance as of 6/30/15. 5/29/15 (JSD): System expected to return to compliance in second Qtr. 2015. 2/13/15 (JSD): Expected to return to compliance during second quarter of 2015.	6/30/2015
10/05/15 (JSD): Returned to compliance as of 6/30/15. 5/29/15 (JSD): P84 construction project is complete as of 3/06/15; arsenic removal treatment and blending treatment being provided. RTC expected in 2nd qtr. of 2015. 2/13/15 (JSD): P84 project is expected to be completed by end of February 2015.	6/30/2015
Pilot study began in May 2015. System should be found in compliance by 7/1/2015.	7/17/2015
7/29/15 update: Approval to operate arsenic treatment given 3/4/15. Current 4QRAA is 6.3 ug/L. Will RTC system eff 8/1/15.	8/1/2015
9/22/15 - Treatment plant went on line 8/25/2015. Going to take a raw water sample to show compliance with the Arsenic standard. Moved intake downstream where arsenic level is below standard. Project also involved replacing the surface water treatment plant at a new location. Once sufficient monitoring has taken place the system will be returned to compliance. 7/2/2015 - Treatment plant construction well underway. Currently project completion is projected to be the end of September 2015 and the system producing water with arsenic levels below the MCL.	8/25/2015

POU treatment installed. LPA and DE agree that this system is in compliance.

Drilled new well and installed an arsenic removal treatment plant.

RAA < MCL - Treatment Installed-Arsenic removal treatment (using hybrid ion exchange) has been installed. The treatment plant is adequate to achieve compliance with the arsenic MCL.

Results of Pilot Study

4QRAA < MCL after treatment installed

Switched to new source intake location on 8/25/15. Sample collected on 9/12/15 from new location was "non-detect" for arsenic. Another sample collected in October 2015 from new location was 2 ppb.

POU units have been installed on 26 connections. RTC after 4 QRAA < MCL. <b>7/29/15 update:</b> 4QRAA with POU in place for one quarter is 23.5 ug/L. Anticipate RTC by end of 3rd Q 2015.	9/9/2015
Currently in the process of reviewing the surface water system documentation and plans	9/18/2015
10/05/15 (JSD): The new arsenic removal treatment plant is operating and the water system has been returned to compliance as of 09/30/2015. 5/29/15 (JSD): Construction of the arsenic removal treatment plant and Well 03 is almost complete. Commissioning of the treatment plant is in progress. 100% completion of the project is expected before June 30, 2015. 2/13/15 (JSD): A new well drilled to replace failed Well No. 1 and adsorption arsenic treatment being installed. Project completion deadline of May 21, 2016 according to the P84 funding agreement.	9/30/2015
	10/10/2015
Treatment plant completed along with initial testing phase.	10/28/2015
8/02/2016 Permit Amendment was received to inactivate East Well from the water system. 4/28/2016 No status change from previous update. Public Notification Provided. West Well; currently has a 4 quarters RAA under the MCL, therefore has returned to compliance. However, east well still over MCL. East well is only standby, however. Still connected to system though.	11/5/2015

RAA < MCL - Treatment Installed
RAA < MCL - Treatment Installed (POU)
Converted over to a surface water treatment plant. Inspection was performed by the LPA to confirm construction was performed according to approved plans. A new State permit will be issued.
RAA < MCL - Treatment Installed-Arsenic removal treatment (using adsorption technology) has been installed. The treatment plant is adequate to achieve compliance with the arsenic MCL.
Drilled a new well

Funding project nearing completion. Arsenic treatment plant has been online since September 2014. Treated water meets the arsenic standard.

Self-funded through community block grant.

Privately owned - System not eligible.

State community college. Have given them the pre-application information and strongly recommended they apply for funding.

PN required, existing treatment plant was re-engineered and construction was completed in September 2014.

Treatment

Continue quarterly sampling to monitor arsenic levels and report in CCR.

8/3/2015 (JD): PWS had their treatment on-line starting in September 2014. So the plant effluent is <10ppb but the RAA was > MCL as of the 1st quarter 2015. It is anticipated that after the 3rd qtr 2015 the RAA is < MCL.	<b>11/6/2015</b>
Water System put new source online. Well #1 is now being used as a backup well and is not interconnected. Treated water sample for 11/16/15 was 5.3 ppb	<b>11/16/2015</b>
Proposed piloting treatment but vendor nonresponsive. <b>7/29/15 update:</b> 4QRAA = 7 ug/L. Will RTC if they maintain QRAA<MCL for four full quarters. System continuing to look at piloting treatment. <b>9/17/15 update:</b> 4QRAA = 3.7 ug/L. Will RTC if this trend continues. 12/8/15 4QRAA <MCL for 5 consecutive quarters based on reduced source water quality arsenic concentrations. RTC effective 12/8/15.	<b>12/8/2015</b>
System is currently still at 10 ug/L running annul average. They will continue to collect quarterly samples and provide sample data in their CCR's. All previous arsenic violations dating from 2007 to 2010 have been returned to compliance in SDWIS. There have been no arsenic MCL violations since 2010.	<b>12/28/2015</b>

RAA < MCL - Treatment Installed
RAA < MCL - Treatment Installed
Arsenic concentrations in source water reduced over last 5 quarters.
RAA < MCL - Natural Causes-No arsenic MCL exceedance since 2010. Previous violations have been returned to compliance but system is still collecting quarterly samples and including this data in their CCR.

01/19/16 (JSD): The Water Company is in the process of completing the online application for construction funding, via FFAST. 10/05/15 (JSD): Funding agreement was amended in Aug. 2015 to allow additional \$10,000. Planning project completion documents received from the engineer; DDW filed its project completion on 10/05/15; next step for the water system would be to go online and complete a construction funding application via FFAST. 5/29/15 (JSD): P84 planning project completion deadline is 6/18/15. Waiting for amendment to the funding agreement to allow additional \$10,000. P84 planning project is almost complete; arsenic blending treatment to be provided

Treatment

Arsenic blending treatment

<p><b>9/23/15</b> - Action Plan was resubmitted. Submitting qtrly reports. ATEC has been hired to design a treatment plant. Plan is still to RTC the end of summer 2016. Should note that arsenic levels seem to be trending down, last two results were 10 and 7.1 ug/L. Based on RAA, system may no longer exceed MCL depending on 4th qtr. result. 7/2/2015 - Action Plan was submitted, District requested revisions by July 10, 2015. Based on the most recent progress report, the system is working with a vendor to scope and assemble the treatment plant, with the goal to RTC by end of summer 2016.</p> <p>4/15/15 - Conversation with Jan Sweigert - CO 05-14R-002 issued on 05/30/14 and amended 10/03/14. CO imposed a RTC deadline of 7/31/2016 and required a revised corrective action plan be submitted by 11/10/14.</p>	<p><b>12/31/2015</b></p>
<p>01/19/16 (JSD): The Water Company is in the process of completing the online application for construction funding, via FFAST.</p> <p>10/05/15 (JSD): Funding agreement was amended in Aug. 2015 to allow additional \$10,000. Planning project completion documents received from the engineer; DDW filed its project completion on 10/05/15; next step for the water system would be to go online and complete a construction funding application via FFAST. 5/29/15 (JSD): Final plans and specification were approved on March 27, 2015. Request 5/06/15 received from Quad Knopf to amend the funding agreement. Waiting for issuance of amendment to the funding agreement to provide additional \$10,000 funding to complete the project. 2/3/15 (JSD): The water system is also in violation of the fluoride MCL. As part of the fluoride mitigation project, arsenic blending treatment will be provided. Final design in progress with a project completion deadline of June 18, 2015 for the planning project.</p>	<p><b>3/7/2016</b></p>

1/12/2016:RAA < MCL - Natural Causes - Stabilized and consistently dropped in last 5 quarters: 16, 16, 10, 7.1 and 6.3 as the result for 4th qtr. 2015. System will remain on quarterly monitoring to ensure arsenic levels do not start to increase with change in recharge conditions due to this year's wet weather.

Construction FA issued for treatment at Garzoli Well

Under RAA

Installing arsenic treatment plant- Adsorptive media

NOV ISSUED W/ CC TO CDPH & EPA

<p>2/8/16- (TW): System has awarded contract for \$3.6 Mill. construction of arsenic treatment plant and storage tank. They did not use well from approximately 6/13 to 12/15. Used the well in early 2013 to pilot different media. Current RAA = 8.1 ppb. However, well only turned on to collect sample so - low sample results may be due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. Construction bid awarded for \$3.3 Million with construction 12-18 months. System instructed to take 1st quarter 2016 arsenic sample-if below the MCL, the system may be returned to compliance. current CO dated 5/8/12 - directs them to minimized the use of the Garzoli well in the system. 11/15/2015- (TW): System going out to bid. Estimated construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. 8/4/2015 (TW): Construction application has been received and waiting for the Construction FA to go out to bid. Estimated FA issued Fall 2015 with Construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.</p>	<p><b>3/7/2016</b></p>
<p>3/7/16 RAA below MCL. Returned system to compliance in SDWIS. 11/15/2015-system is proposing to do blending. System only needs some infrastructure for blending - flowmeters and valving for regulating the blending. Submitted a permit amendment for blending. 10/15-2nd quarter arsenic not collected. System collected 3rd quarter but results not available.</p>	<p><b>3/7/2016</b></p>
	<p><b>3/9/2016</b></p>

Source(s) Reclassification - Garzoli Well was inactivated. The City has a FA for the construction of an arsenic treatment plant – construction is starting. The well be offline until the project is complete. The RAA has dropped below the MCL – last sample from 11/15 was 6.4 ug/L.

RAA < MCL - Natural Causes

RAA < MCL - Natural Causes-The water table lowered and they had to lower their pump. They also cleaned out a lot of sediment from the bottom of the well.

ON ASSISTANCE REFERRAL LIST I THINK
-------------------------------------

No SRF application
--------------------

New owners. Revisiting permanent source of blend or consolidation.
Consolidate with the City of Santa Rosa

Water system is going to continue on quarterly testing.	3/9/2016
<p>3/3/2016- DEs is positive Bella Vista has connected to Paso Robles Beach MWC. The water system needs to sign the declaration form saying they are no longer a water system and state the reason as they've connected to a permitted public water system, which should be named specifically. A letter was also sent a letter to the Paso Beach operator asking for documentation. Once we receive those documents, we will add it to the RTC list. 12/2015-Bella Vista is no longer blending, they are 100% purchasing water from Paso Beach. LPA has not seen the final contract so until they do, they don't want to inactivate the system. Kurt Souza says they are RTC because the water deal is going to happen. 6/2015-Hook up in progress to local CSA - Kurt S. advised to take of list. Until then they are blending.</p>	3/21/2016
<p>2/26/2016-In litigation - The inn's owner and his contractor have submitted sworn testimony subject to penalty of perjury in state court attesting to the fact that inn is (and has been since October) connected the city water system and disconnected from the well. 1/11/2016 - Project appears to have been completed but there is no communication from Palms Inn.</p> <p>9/22/15 - Attorney General's office if overseeing compliance with the stipulated agreement. Stipulated Judgment agreed to in Sonoma County Superior Court. System must connect to City of SR by Oct 31, 2015.</p>	4/15/2016

RAA < MCL - Natural Causes-The RAA is currently under the MCL and the system will be monitored for two year with quarterly sampling to ensure that system will not fall out of compliance in the future. All current sampling results are around 2ug/L.

Connection to Paso Beach water co., wells disconnected from domestic system.

SRF Planning and Construction

Water system does not exceed the MCL.

P84 project - construction

No

Water system will be required to stay on quarterly monitoring
Consolidate with the City of Tulare.
BOTTLED WATER PROVIDED and Pending Consolidation with City of Hanford.

2/28/2011	8/28/2012

2/22/2016	Yes

4/21/2016	1/31/2019

12/12/2016 - FA has been executed. Project is underway. 9/16-Construction started on arsenic treatment plant - plan to be completed by April 17. Wells have currently been under the arsenic MCL since 2013. EPA rescinded the EPA AO for the system. 6/16-well drilled. Construction FA issued 3/16. 4/16-construction underway.	4/20/2016
5/9/2016-Water system does not exceed MCL; do we want to RTC.	5/17/2016
4/27/16: consolidation order issued 3/29/16. consolidation complete by 6/1/16. 1/11/16: Consolidation letter from DDW mailed August 2015. Steps/communication toward consolidation are ongoing. PN is not being provided in quarters when RAA < 10. 9/21/2015: Consolidation letter from DDW mailed August 2015. Consolidation should be complete Q4 2015.	6/9/2016
4/27/16: Received correspondence from the City of Hanford and the operator. The permit was processed and the connection is set to be final on 5/11/16. I have reported the information to Tricia Wathen. 3/10/2016: Anticipated to have the consolidation completed by 3/31/2016. They are currently in the process of laying the pipe and making the connection to the City of Hanford. The County sent the District the PO from corporate on the installation of water mains to connect to the City of Hanford. Cost is approximately \$95,000 and was dated 2/23/16. once construction is completed, the water system will be inactivated and RTC. 12/1/2015-Pending Consolidation with City of Hanford. Last update was obtained in October 2015. The system currently is supplied city water for their production but their domestic line remains to be connected. A revised CO will be issued if they do not consolidate by January 2016.	6/17/2016

RAA < MCL - Natural Causes for two or more years.

RAA < MCL - Natural Causes for the past 4 quarters.

Funding approved for planning. Evaluation to blend sources to reduce arsenic level to below MCL. Two of the three wells are below the MCL. Funding application approved.

Funding agreement executed.

2/18/2016. Filtering system was installed. First sampling results submitted on 3/16/2016. Results were non detect. A three month sampling to be conducted to evaluate proper function of sytem. 2/18/2016: Plans for filtering system were approved. Installation will take place 2/29/2016. 1/15/2016: Plans for a filtering treatment submitted. Original compliance plan submitted to LPA September 30th, 2010. Compliance plan was changed in 2014 to blending plan. Proposed solution was a blending plan which was approved by District Engineer and LPA 7/17/2015. Some efforts were made to implement plan, but was not implemented. On 10/23/2015 representative informed DEH that they will be looking into a filtering system. Plans will be submitted within the next week. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.

Inactivate Well #3. Wells #1 and #2 are below the Arsenic MCL.

Consolidation with the City of Santa Rosa

<p>4/18/2016. Filtering treatment system has been installed, Two consecutive sampling sets a week a part were reported non- detect. sampling for 4 initial weeks and then monthly. DE required the running annual average of treatment to meet requirements before the system is returned to compliance. 1/15/2016: after evaluating levels of uranium and arsenic, operators decided to install a filtering system instead. The filtering system gave them more confidence to reach compliance. 2015: Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. State engineer and LPA visited site in January 2015 to evaluate blending plan. Blending plan was approved, but system decided not to implement. System will be submitting plans for a filtering system with in one week. 7/26/2016 Filtering system was installed. The system appears to be working last two quarters have been ND. DE requested 4 to be below 10 before RTC. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.</p>	7/27/2016
<p>6/24/2016: Inactivation was delayed to coincide with summer break. 4/29/16-Well 3 to be inactivated in June 2016. 1/29/16-Well 3 to be inactivated in February 2016</p>	7/28/2016
<p>1/11/2016 - Project on schedule to complete by 3/1/2016. 6/30/2015 - City of Santa Rosa preparing to go to bid. Construction projected to be completed by 3/1/2016. Consolidation should occur within 12 months. Funding agreement executed.</p>	8/26/2016

Prop 84/SRF

Yes

<p>11/30/16 (MT/UTL) Ice pigging is complete. The project is essentially complete, but the contractor needs to complete the final punch list items and submit their final payment request.</p> <p>6/16/16 - Water line and facilities construction has been completed and inspected. Bacteriological contamination was found in newly constructed lines which has resulted in a delay. System is currently hooked to city water, but remains on public notification until Ice Piggying of the existing distribution lines is completed and bact testing completed. 6/16/16 - Water line and facilities construction has been completed and inspected. Bacteriological contamination was found in newly constructed lines which has resulted in a delay. System is currently hooked to city water, but remains on public notification until Ice Piggying of the existing distribution lines is completed and bact testing completed. 4/22/16 - Construction of supply line for purchased water is projected to be finished in the next couple of months. This department has issued a destruction permit for one of the exisitng sources. 11/2/2015-*Project has go out for bid awaiting construction schedule. Compliance order will be revised based on projected time frame for FA and construction. Awaiting response.</p>	<p>9/26/2016</p>
<p>7/26/16 - WTP operational, permit issued 7/1/16. Need to confirm with July monthly report (due by 8/10/16) if RTC. 6/24/16 - WTP is operational and WS is beginning compliance sampling. Permit is on schedule to be issued by end of June. 4/29/16 - WTP is operational and in commissioning phase, permit to be issued by June. 1/29/16 - Start-up testing is underway, WTP should be online and permitted by Mar 2016. 11/2/2015-status is the same as 10/2/2015 update. 10/2/15 - Start-up testing and commissioning of EDR treatment plant is underway</p>	<p>9/30/2016</p>

Consecutive connection and are  
purchasing water from the City of Ceres.

City has submitted an application for funding thru SDWSRF.

Not applicable

The system has submitted a corrective action plan. They are exploring treatment options.
Tier 2 notifications
Each service connection has a POU RO device which reduces the arsenic level to below 10 ug/L

<p><b>11/7/16 update:</b> RTC based on 4th QRAA results <b>8/16/16</b> Will confirm ability to RTC based on sampling following installation of POE; <b>6/14/2016:</b> POE device testing shows ND in samples collected on 1/28/16, 2/3/16, 2/11/16 &amp; 2/18/16. <b>8/4/2015:</b> The water system's consultant will have the POE test plan to the State in three weeks, and on the State's approval can complete installation in three weeks. The State will require a one month 'pilot' demonstration of the POE units. Estimated completion of the piloting is November 1, 2015. <b>7/29/15:</b> 4QRAA = 13 ug/L. System has been developing information on appropriate treatment and pilot study. <u>Do not agree</u> that revised CO is appropriate at this time. <b>9/17/15</b> Corrective Action Plan submitted for review dated 9/4/15. Proposed POE at 2 locations where domestic use of water occurs. DDW approval of plan sent to system on 9/17/15;; 11/13/15 Q progress report submitted . <b>5/4/16 update:</b> DDW approved use of POE arsenic treamten via letter dated 4/22/16 based on results of a pilot study &amp; report. POE installed at two locations.</p>	<p><b>10/4/2016</b></p>
<p>6/29/2016: The treatment plant is installed and operational. As indicated, their treated water results are 5.1 ug/L. This system will be returned to compliance.Updated 9/29/2015 - KDC: Arsenic treatment plant being installed and should be operational by December 31, 2015. Per a law suit that was settled out of court, the City must be providing arsenic compliant water by 6/30/2016.</p>	<p><b>10/14/2016</b></p>
<p>5/9/2016-Arsenic Water Treatment Unit expected to be delivered within the next week. Will be operational within a few days. 12/1/2015-Arsenic Water Treatment Unit expected to be delivered within the next week. Will be operational within a few days.</p>	<p><b>12/1/2016</b></p>
<p>Inherited from Merced County (LPA). The system has reliably produced water that complies with the arsenic MCL with the use of POU devices.</p>	<p><b>UNK - No action listed in SDWIS</b></p>

3/24/2011	12/28/2013

<p>1/13/17 - Water system was returned to compliance in the 4th quarter of 2016. The new source is being tested quarterly for arsenic as its preliminary and initial arsenic tests indicate near the MCL (8-9 ug/L). *Construction application is complete and FA is in progress. Compliance order will be revised based on projected time frame for FA and construction. Awaiting response.</p>	<p>11/8/2016</p>
<p>6/16 - RAA is below MCL. Planning to return Richgrove back to compliance. Awaiting 2nd Q 2016 result. 4/28/16 System has 5 consecutive quarters of data on file. RAA is below MCL. 3/10/2016: Monitoring has been sporadic and will be expecting a sample result at the end of the month and the District will evaluate then. 10/15-Planning study completed. LOC issued for P84 construction funding. CSD behind on financial audits which prevent a water rate study to be completed which needed before the Prop 218 hearing can be completed.</p>	<p>2/6/2017</p>
<p>1/24/2017: This system was RTC in SDWIS and should be removed from the tracking spreadsheet. 6/29/2016: They have continued to have difficulties with getting the blend treatment going. They are currently just using Well No. 401 and not Wells Nos. 1 and 2. However, if demands increase, then they would need to use Wells Nos. 1 and 2 (high arsenic wells) to meet demands. 5/7/2016 - KDC: Blending treatment should be operational by June 30, 2016. 3/10/2016: system will be in compliance by the end of March 2016 by either blending or using the intertie with the adjacent prision's well. 11/2/2015 - KDC: Blending treatment should be operational by Dec 31, 2015. Mechanical issues with the blend source caused delays in commencement of the blending treatment.</p>	<p>10/14/2016</p>

02/06/17 (JSD): Revised plans and specs for the regional consolidation project have been received; they are under review by the DDW staff with a goal to complete review by 02/15/17. The water system has been returned to compliance since the running annual average values for last several quarters have been below 10.5 ug/L. 11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA. 10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality results of the test well are awaited. Draft PDR of the design of consolidation pipeline of small systems has been received and is under review by the DDW. Deadline for completion of the planning project is January 22, 2016. Part of Rosamond CSD Regional Consolidation P84/SRF Planning Project.

2/6/2017

RAA values for last 8 quarters have been  
below 10.5 ug/L.
